

Thanksgiving week

Can't wait to arrive to Carpenter's House for Thanksgiving.

I am looking forward to help those that are in need specially those of the family of god.. See you soon..Shalom...

Our group just finished working at CH2 and Miss D's house on St. Maurice just around the block from CH2. We were so blessed by the neighbors on St. Maurice who stopped by to visit while we worked painting (all 5 rooms plus windows!) It was such a blessing to see this house transformed with color and knowing that it is going to be more than a house -- it is going to be HOME. Helping to make the kitchen, baths, and sleeping rooms at CH2 close to ready to meet the needs of the neighbors and incoming teams was an experience we will long remember. We will be back next year!

Thank you so much for allowing us to come down and help with getting the center built. I had so much fun and learned so much about myself and the true meaning of Thanksgiving this past week. I also was ministered to the simple message of the Lord, love. If we love each other we can't go wrong. Jesus welcomed every one with open arms and loved them and we should do the same. I can't wait to come back and see the progress and help out some more. I hope ya'll have a blessed Christmas holiday and rest of the year. Till next time.

Khyre
